

HOW TO SAVE UP TO

\$10,000 ON YOUR AUTO LOAN

It's one thing for your finances to be organized, another for them to be strategic. We meet smart people everyday ticking all the right boxes. Significant down payment, on-time payments, decent terms and yet, they still find themselves paying too much over the life of their vehicle loan.

In this free guide, we'll be sharing real stories of people who have transformed their smart financial decisions into strategic investments. By partnering with WEOKIE Federal Credit Union, these Oklahomans have saved thousands of dollars. The best part is that it all started with a quick and painless application online.

Aileen and Todd came to WEOKIE to refinance their auto loan and were also looking for a calculated way to pay off some credit card debt. After applying, we were able to get them approved using their vehicle as collateral.

With an auto loan rate of 22% and credit card rate of 21%, we were able to combine them into a single payment with a new rate of 2.99%. Over the life of both loans, Aileen and Todd will save over \$3,500.

STEVEN*Signature Loan and Auto Loan Refinancing*

Steven visited WEOKIE, hoping to obtain a signature loan for several expenses. Our financial experts noticed he had an auto loan financed somewhere else. From there, we refinanced his auto loan and were able to add in the signature loan since he had equity in his car.

We were able to drop Steven's interest rate from 6.2% to 2.5%. And, since we added the signature loan, we saved him from a higher rate and two loans. Steven ended up saving over \$6,000 and all it took was a couple of strategic moves.

CHANCE*Auto Loan Refinancing*

Chance came to us, looking to refinance his vehicle loan. He was paying an outrageous 20% interest through the dealership. And, because it was his first time partnering with WEOKIE, we were able to offer him 50% off his first auto loan – lowering his rate to just 3%. His monthly payments dropped from \$419 to \$294 and over the life the loan, Chance will save over \$10,000.
